KEY ● Standard ○ Optional – Not available N/A — no rating published by the manufacturer All radios and cameras support individual, group and all-call, text messaging, GPS location reporting, and remote stun / kill / revive from the dispatcher.

¹ The GP700 also provides man-down detection, lone-worker monitoring and geo-fencing.

Battery life figures are supplied by Signals NZ. Actual shift length depends on talkgroup traffic, screen use and network conditions.

Every device requires a Press2Talk PTToc subscription at \$17.00 + GST per user per month. Radios, cameras and app users share the same talkgroups.

² The M50 provides lone-worker monitoring and geo-fencing through the dispatcher.

The D5 records 2K video (2560×1440, 30 fps) with dual cameras, infrared night vision and H.265 compression, and uploads automatically over Wi-Fi.

Band support varies by regional variant. Confirm the New Zealand variant and carrier compatibility with Signals NZ before ordering.

³ D5 working times: PTT 10 h at a 5-5-9 duty cycle, video recording 6 h, video transfer 3.5 h, standby 30 h. The battery hot-swaps with 5 minutes of continuous operation. Prices are ex GST; inc-GST figures are calculated at 15%. Current 16 September 2026 and subject to change.

Specifications are the manufacturer's and are subject to change without notice. Compiled 16 September 2026.
